

Assignment 6(By meeting at **4:00pm on 10/24/Sunday**)

Your name:	Score:
------------	--------

*No submission is required (except those marked in boldface), but be ready to answer all questions related with the following questions related with textbook (if a question is to ask you to write a code---you do not have to but you should have thought about it on how to design and implement (what data structures for the problem...))—**you will be asked to answer not only the following questions but also those related with the chapter topics—so you must read the textbook!!!***

Chapter 7:

- Read ALL sections of the chapter.
- Be ready to answer the following *Review Questions* at the end of Chapter 7:
 - Review Questions:
 - 7.1
 - 7.2
 - 7.3
 - 7.4
 - 7.5
 - Exercises
 - **7.1** (all except *h*)
 - **7.2**
 - **7.4** (proof is not required)
 - **7.5**

*(Remember, you need to **submit your solutions** to the above questions printed in **bold fonts** at the beginning of the class on 10/24/2010)!!*
