

## Web 2.0 Assignment#3

(Due by 12/1/2010/Wednesday)

Your name:	Score:
------------	--------

**Provide your solution in a Word file** for the following exercises at Moodle—(after you have log onto Moodle, click on “Assignments” then click on “Web2\_Assignment03\_Submission\_HERE) for submission):

**Web2.0 Part 3** Independent Challenge project:

- First Read PPT (Slides) file named “Part 3: Collaborating and Sharing Information” on the course website at [http://cs.salemstate.edu/~b\\_yi/2010Fall/ITC100/resources/index.html](http://cs.salemstate.edu/~b_yi/2010Fall/ITC100/resources/index.html) (you need to use Class Username and Password to access it (Username is: “ITC100”, the password has been given in class).
- Then work on the following project and provide your solution in a Word file and submit at Moodle.

You are designing a Web site for your student government. In order to get ideas, you have decided to research how governments at the federal, state, and local levels use Web 2.0 technologies. Go to the Web site of a national government (not the United States or Canada) and explore it by clicking various links. If you can read more than one language, feel free to go to a non-English-speaking country.

- Which Web 2.0 tools, if any, does the government use? Is it possible to subscribe to a blog or an RSS feed?
- Take a screen shot of the Web page that shows links to Web 2.0 tools.
- Go to the Web site of your hometown government.
- Which Web 2.0 tools does the local government use? Is it possible to subscribe to a blog or an RSS feed? (hints: If your hometown does not use Web 2.0 functionality, find a municipality that does.)
- Take a screen shot of the Web page that shows links to Web 2.0 tools.
- Provide you solution and screenshots in a single Word file and submit it at Moodle.
