Important Notice:

1. Create a directory whose name should read like “**Assignment05_YourLastName**” (for example, “Assignment05_Yi”. The name should *NOT* include space(s)).
2. Create and complete a project under this directory for each of the following Java projects. The **project name** should look like “**Ch3_Qnumber**” (for example, project name “**Ch3_ProgChallenge_1**” should be used for the *following first project*).
3. After completing the assignments, compress the directory (including all its contents) into a **single ZIP file** and send the compressed file (with the same name as the directory) to the instructor by email (The **email SUBJECT should read “Assignment03 from YourFirstName YourLast Name**”, for example, “Assignment05 from Beifang Yi”).
4. The full score for this assignment is 100 points, **15** of which go to your Java code programming style (if you have followed the Java Code Convention).

Complete the following Chapter 3 **Programming Challenges** projects (from Chapter 3 Lab Manual at
