Assignment 17---**100** points
(Java Programming Practices)

(Submission by 12/19/2011/Monday-Midnight at Moodle for full credits)
(**No Late Submissions Accepted**)

Your name:	Score:

This is a Group Project:

> **Part I**: (**5** Points) Due **by Friday (12/9/2011, Lab hours): TWO copies** of One-half page or one page description of your project including the names of group (**at most 3 people** can be on one group) and the name of the group leader (who is one of the members and is responsible for submitting the complete project at Moodle. Only one submission is required).
>
> - **A prototype/diagram with your description is highly expected!**
>
> **Part II**: (**95** points) Due by Monday midnight (12/19/2011) at Moodle. The submission must be a single compressed (zip) file and include:
> - All the source Java code or project folder/subfolders/files (including pictures-sound files that are required to execute your program), and
> - One ReadMe.PDF file that briefly describes the project.

****

Important:
- **You must talk to the instructor about your project and get his approval before you work on it. Otherwise, your project grade might be as low as 0 points!**
- **Your project must use GUI features for inputs/outputs/display.**
- Your implementation (coding) must follow Java Coding Convention if you don't know, please use the code examples of the textbook as example); otherwise, up to 10 points will be deducted from your grade.
