Assignment 6
(Full Score: 40 points)

(**Due by 2/23/2011/Wednesday Midnight at Moodle**)

Your name:	Score:

Chapter 4-Linked Structure Java Project

Read Chapter 4, test the sample code, pay particular attention to the implementation of class *LinkedStack*. This linked implementation uses a count variable to keep track of the number of elements in the stack. Rewrite the linked implementation without a count variable and test your new implementation (of *LinkedStack* class) in the Maze game provided in the chapter.

Submission:
Submit your project in **a compressed file** to **Moodle 2/23/2011/WednesdayMidnight**!
