

Course Schedule for CSC279
(Subject to Change)

Week	Dates	Contents (textbook chapters and others)
1	9/2—9/6	Warming-up, C/C++ Testing and IDE C: Introduction
2	9/9—9/13	C: Basics (Control, Functions, Arrays)
3	9/16—9/20	C: Pointers
4	9/23—9/27	C: Characters, Strings C: Formatted I/O
5	9/30—10/4	C: Structures, Unions, Bit Operations C: File Processing
6	10/7—10/11	C: Preprocessor, Head Files C++: Introduction (I/O, Classes, Objects)
7	10/14—10/18	C++: Basics (Member Function, Control)
8	10/21—10/25	C++: Templates and Exception Midterm
9	10/28—11/1	C++: More about Classes C++: Operator Overloading
10	11/4—11/8	C++: Operator Overloading C++/OOP: Inheritance & Polymorphism
11	11/11—11/15	C++/OOP: Inheritance & Polymorphism C++: Stream I/O
12	11/18—11/22	C++: File Processing C/C++: Standard Library
13	11/25—11/29	C/C++: Standard Library (Thanksgiving Recess)
14	12/2—12/6	C++: Templates and STL Memory Allocation and Management
15	12/9—12/11	Paradigms, Type Systems
15~16	12/13—12/20	Final Examination Dec 19th, Thursday, 11:00am—1:00pm, MH210

Classes End: December 11, Wednesday

Last Day to Withdraw: November 22, Friday
